FIRST INFORMATION REPORT
(Under Section 154 Crpc)

[ Before the Honorable CMM Court Bengaluru City ]

... 104/2016 Police Station: Bengaluru Metropolitan Task Force

... TIME: 12-15 hrs. District : Bengaluru City

Type : Computer Typed State : Karnataka

2. Act and Section: 192(A)&(B) KLR Act and 436(A) KMC Act, and 217, 432, 434, 441, 427,420 IPC

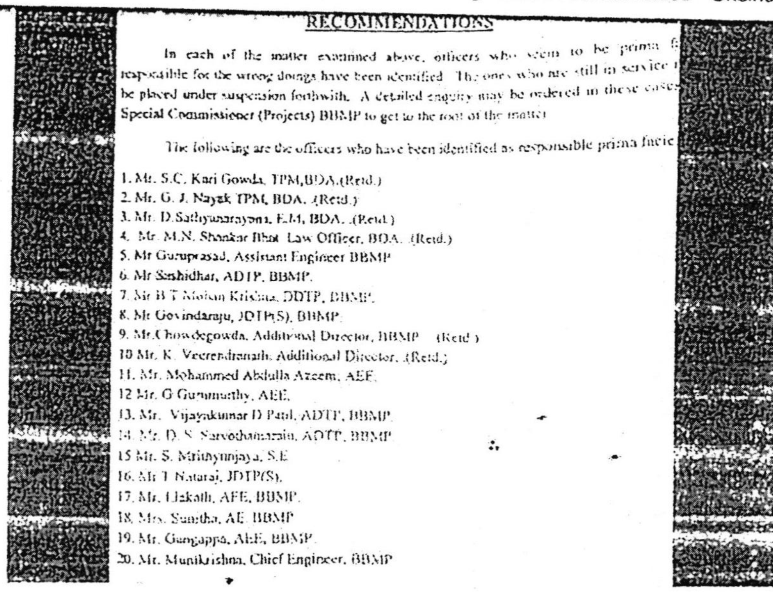

the RMP 2015 are called Newly Identified Drains.

Officials got away saying no drain was spotted in the RMP 2015 maps at the location where there was an encroachment. And apparently, there is no prescribed buffer zone that builders should provide for drains that are not seen in the RMP maps. It may be noted here that officials made no mention of the May 2016 order of the National Green Tribunal that barred construction activity 50m from the edge of primary Rajakaluves, 35m from secondary Rajakaluves and 25m from tertiary Rajakaluves. Drains not recognised by the RMP are referred to as Defined Rajakaluves - they are visible only in village maps that date back to Bengaluru's first survey commissioned by the British way back in 1902. This paved the way for meticulous village records - tippani (detailed drawing), pakka (summary), pahani (rights, tenancy and crops) and an atlas giving sub-survey level maps.
